

Plantation Animal Clinic

Pet: _____ Dental Procedure Form

As with any surgery requiring general anesthesia, there is a risk that serious complication or even death may result. To minimize the likelihood of such occurrences, we offer the following diagnostic tests prior to anesthesia. All tests are potentially lifesaving, and the value of the test’s usefulness increases with the age of the pet. We **strongly** recommend the **Chem2** on all animals over 7 years of age. Every anesthetic patient will have an IV catheter placed prior to any anesthesia for fluid support and administration of medications.

- Chem1:**Blood test:an analysis of liver, kidney, and health status. **Fee:** \$56.00 **Yes** **No**
- Chem2:**Includes chemistries of above,plus CBC, an analysis of red/white blood cells and platelets. **Fee:** \$88.00 **Yes** **No**

•**Dental Extractions:** Please understand that your pet may require tooth extraction(s) today. This is often needed to alleviate pain that is usually not evident. We are continually told that older patients “act like a puppy again” after these extractions. In addition to pain, these diseased teeth can often be a source of significant infection (like severe tartar on teeth) and bad breath. Please indicate what you would like us to do in the event teeth are identified that require extraction. The cost for this may vary from \$30 to \$350, potentially more, and will require pain medication and antibiotics.

- I AUTHORIZE ANY NECESSARY TOOTH EXTRACTIONS.
- I WOULD LIKE THE DOCTOR/DENTAL TECHNICIAN TO CALL ME PRIOR TO EXTRACTING ANY TEETH. IN THE EVENT I CANNOT BE REACHED PLEASE PERFORM NECCESARY EXTRACTION(S).
- I WOULD LIKE THE DOCTOR/DENTAL TECHNICIAN TO CALL ME PRIOR TO EXTRACTING ANY TEETH. IN THE EVENT I CANNOT BE REACHED PLEASE DO NOT EXTRACT, EVEN IF IT IS AGAINST MEDICAL ADVICE.

•We can place an **Identification microchip** in your pet while he/she is under anesthesia. Because this can be a bit painful we prefer to perform this while they are sedated. If done under anesthesia we offer a 15% discount off the regular microchipping cost.
Fee: \$34.50 (includes registration fee) **Yes** **No** (ID Chip)

Previous medical conditions; reactions to medicines or vaccines? _____
O heart condition O diabetes O allergies O pregnancy O in heat

Please list any medications your pet is currently taking and when it was last given: _____

I am aware of the risk and understand the rest of the information on this form. I give permission for you to proceed with the procedure.

Signed: _____ **Date:** _____
Phone number(s) where you can be reached today: _____
